FOR IMMEDIATE RELEASE

7th Biennial Texas Panhandle Groundwater Conservation Symposium

Event Date: February 28th, 2024

Time: 8:30 AM – 4:30 PM

Location: Amarillo Civic Center – Heritage Room

Panhandle Groundwater Conservation District is proud to host the 7th Biennial Texas Panhandle Groundwater Conservation Symposium in Amarillo, Texas.

During this event, there will be speakers from across the state coming to inform the attendees about water conservation with topics consisting of Thinking Beyond the Next Drought, Private Well Owner 101, and Climate Outlook for Spring of 2024.

At the Panhandle Groundwater Conservation District, we strive to develop, promote, and implement water conservation, augmentation, and management strategies. To protect water resources for the benefit of the citizens, economy, and environment of the district. The water conservation symposium is an important event that helps us continue to educate the public about water conservation.
